

Miniaturised Electronic Circuits and Sensors

Prof. Jean-Michel Redouté, ir. François Dupont

Institut Montefiore

jean-michel.redoute@uliege.be, fff.dupont@uliege.be

10 ongoing projects

Electronics lab, 200 m² clean room including equipment for production and characterization of microsystems.

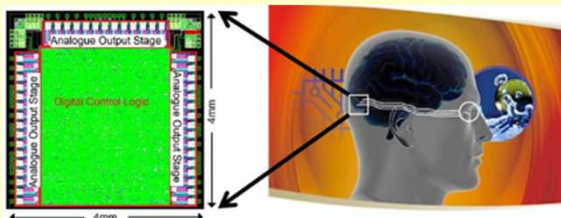

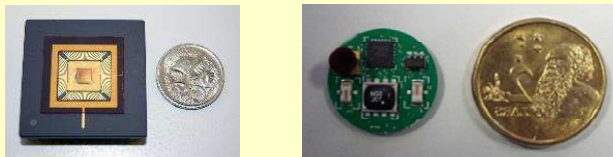

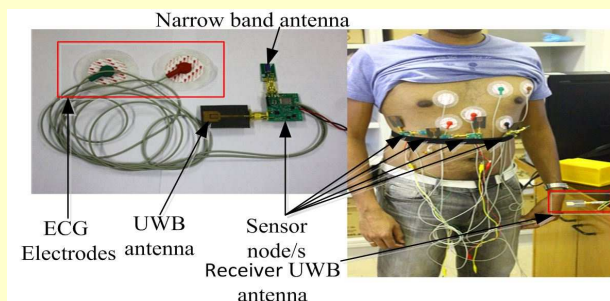

Team of 15 researchers

Microsys Laboratory - www.microsys.uliege.be

- Micro-assembly, interconnection methods, packaging, harsh environments, biochips, MEMS sensors, energy harvesting, ultra-low-power microsystems.

Electronics and sensors for biomedical applications

Chips that see and think in 3D
