Do you want to work in a fast paced, world class organization with a long history and an exciting future? Do you want to be part of a team based in Colmar-Berg contributing to the innovation, safety and sustainability of tires that drivers across EMEA rely on every day?

... if the answer is yes, then we have the right job for you :

Engineers for our Project Team in our Tire Plant (m/f)

The opportunity

- Lead and/or realize Engineering equipment and Infrastructure projects
- Establish technical specifications based on customer department needs as well as on Goodyear internal and legal requirements
- Create professional relationship with suppliers
- Support production and maintenance departments on existing machinery reliability improvement and major breakdowns

To join our team you will need:

Education:

The candidate should have a Master degree in Engineering (Mechanics, Electro-mechanics or Thermodynamics)

Experience:

Experience in an industrial/technical environment is an asset

Languages:

- Fluency in English is mandatory.
- Fluency of either German or French is mandatory (both would be a major advantage).

Skills & Qualifications:

- Strong analytical skills
- Proactive mindset
- Active team member, self motivated
- Ability to communicate internally and externally
- Open-minded and flexible
- Working in a plant environment is part of the job
- Committed to planning and results
- Flexible personal availability if needed
